

## ALL UNIONS TO TAKE PART

Committees to Meet Thursday  
Night to Complete Arrangements for Celebration.

President F. T. Carter has called a meeting of the executive board of Central Labor union for 8 p.m. Thursday at the Labor World office. At this meeting the arrangement, parade and thrift stamp committees will be present to perfect plans for the great demonstration next Sunday. Philip Capote is chairman of the arrangement committee and Phil Shugart is in charge of the parade plans.

It is not believed that the seating capacity of the auditorium in the courthouse will be sufficient, and the meeting will probably take place in Pilgrim Congregational church.

The speakers will be John T. O'Connor, of Knoxville; T. J. Smith, president of the Labor Federation of Labor; Richard Harding, of the war savings committee, and Capt. Johnson, of the British army.

Nearly, if not quite, all the unions in the city are expected to take part and make displays.

The Chattanooga Typographical union will have a float in the parade, with banners demonstrating the patriotic work of the international union, showing in detail the members who have joined the colors, the amount invested in the different bonds issued by the government to prosecute the war, and amount of death benefits paid by reason of casualties at the front.

All railroad unions have been requested to take part in the demonstration, and all laboring men, organized or unorganized, are invited to join in the great labor event.

The parade will form on Broad street before the mass meeting, at places designated for each division, between Ninth and Seventh streets. Aside from the union musicians' band there will also be two large military bands from Fort Oglethorpe.

## AMERICANS LOST ON TUSCANIA NUMBER 170

Embassy in London Cabled to Clear Up Tangles in List of Names.

Washington, Feb. 14.—Cablegrams are going forward to the American embassy in London from the war department today in an effort to complete the list of Tuscania survivors and untangle names which have been garbled in transmission.

Latest advices to the department continue to indicate that a few more American soldiers were lost than the 164 already reported buried in Scotland. Reports place the American dead at not more than 170, although the list of saved is far from complete. About 250 of those on the passenger list still are unaccounted for, but the department has more than 270 names of survivors it has been unable to decipher. Some of these are supposed to be duplicated and some names of men of whom there is no record.

The Associated Press list of unreported names by checking both official and unofficial advices against the passenger list stands at 171.

## CHICKAMAUGA SURE TO COME INTO OWN

Fred Cantrell, Back From Washington, Elated Over Prospects.

A report on the results obtained by the committee from the Chattanooga Automobile club, which went to Washington on the interest of securing a division for Chickamauga park, will be made at the meeting of the club tonight in the Hotel Patten. Members of this committee who made the trip are T. C. Thompson and Fred H. Cantrell.

Mr. Cantrell, who arrived in the city last night, is highly gratified over the result the committee has obtained from their interview with the secretary of war and other officials. "From the assurances given us," said Mr. Cantrell, "I believe we will soon have thirty thousand additional soldiers at Fort Oglethorpe. Mr. Baker, the secretary of war, is very favorably disposed."

## "TIZ" FOR SORE, TIRED FEET---AH!

"Tiz" is grand for aching, swollen, tender, calloused feet or corns.

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which put up the feet, cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions.

Get a 25-cent box at any drug store or department store and get instant relief. Wear smaller shoes, too, once try "Tiz." Get a whole year's foot comfort for only 25-cents. Think of it!—(Adv.)

## INSPECTION OF CAMP RATIONS

Party of Experts at Greenleaf.  
Lecture to Cooks and Mess Sergeants.

A party in charge of Capt. H. A. Mattill, representing the office of the surgeon-general at Washington, is at Camp Greenleaf for the purpose of making an investigation of the food conditions.

In talking of the work of the committee, Lieut. N. R. Blatherwick, a member of the party, said Thursday that at present there are several parties in the field. The party at Camp Greenleaf is known as "party A." These parties travel from camp to camp, spending some two or three weeks at each. While in camp a general inspection of the food and diet is made. A detailed study is also made of the number of individual messes.

In these detailed inspections Lieut. Blatherwick explained how they determine the actual consumption of protein, fat and carbohydrates, also the amount of food wasted.

In referring to the conditions at Camp Greenleaf, Lieut. Blatherwick stated that the waste there was of the normal limits. He said that the conditions show a great improvement over those of last October, when another party from the department was here.

A meeting of the cooks and mess sergeants of the medical camp was held Thursday afternoon at 2:30, at which time the members of the "food party" discussed food from the standpoint of nutrition and made suggestions as to the storage of food, the keeping of vegetables in bins so that they will be well ventilated, and the proper balancing of diets in order to get the best results. There will also be a meeting Saturday morning for the benefit of the students at Camp Greenleaf, at which time Capt. H. A. Mattill, Lieut. R. W. Berry and Lieut. N. R. Blatherwick will talk.

Lieut. Blatherwick says the staple food for the soldier boys is fresh beef. He also remarked that the students at Camp Greenleaf observed meatless and wheatless days the same as the people in town. While this "Hooverizing" program is carried out in the training camps, it is not observed by the regular enlisted men.

The members of the food division are physicians, all of whom are experts in nutrition, who have been brought into the service to safeguard the nutrition in the army.

## WARM WEATHER PROVES BOOM TO ALL RAILROADS

Railway officials are very much

gratified with present weather conditions, as the northern traffic has been tied up, and business handicapped. In an interview with the official, he said: "Normal conditions exist throughout the south, and the fine weather we are having, we believe, will assure normal conditions in the north." High water, snow and ice were said to be the general hindrances, and the water receding and the ice melting would soon relieve the congestion. Troop movement is heavy, he said.

Seven southeastern states will be asked to subscribe \$75,000 of the \$1,000,000 fund which the Salvation Army must raise at once in the United States in order to continue the work it has undertaken among the American troops at home and in France.

The big subscription campaign drive was begun Tuesday and will last ten days, ending on Washington's birthday.

Southeastern headquarters have been established in Atlanta, but special committees will be named for the work in each state and for each congressional district in North and South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana and the eastern part of Tennessee.

In France the Salvation Army huts are the most popular places around the American camps with the soldiers. Committees will be appointed in Chattanooga and a campaign inaugurated in a few days.

**FAMOUS DENTIST FOUND DEAD—APOPLEXY CAUSE**  
Cincinnati, Feb. 14.—Dr. John B. Callahan, whose scientific researches in dental surgery brought him wide recognition, was found dead in his bed at the Queen City club here yesterday. Coroner Bauer said apoplexy was the cause of death.

Dr. Callahan's greatest contribution to dental science is said to have been his discovery that diseases of the entire human system frequently originate from infected teeth. Dr. Callahan was 65 years old.

Roller skating tonight and every night, Warner park.—(Adv.)

**W. S. ANDREWS HERE; ELATED OVER IMPROVING SCHEDULES**

W. S. Andrews, general superintendent of transportation of all Southern railway systems west, is here looking after the interests of the road. Mr. Andrews reported that the Chattanooga system was in good order and believed with continued favorable weather conditions the road would soon handle all cargo. He said, "We have gotten to the place where passenger trains are coming in on time," and said he felt hopeful for the future.

Superintendent Howell reports a 50 per cent. increase in business this month against the same month last year. "We have given up twenty-five or thirty of our experienced men to the draft service, and labor being scarce, we feel pleased with the results."

C. L. Chandler is in New York looking after the business interests of the Southern Railway company.

## NEW YORK RESERVE BANK PRESIDENT URGES BILL

Washington, Feb. 14.—Necessity for legislation to provide financial relief for corporations by furnishing additional capital and prevent them from being forced into bankruptcy was urged today by Benjamin Strong, governor of the federal reserve bank of New York, before the senate committee considering the war finance corporation bill.

"This bill provides the best and the wisest suggestion for dealing with the subject," said Mr. Strong.

## STRIKES AT BALTIMORE HINDER SHIP BUILDING

Baltimore, Feb. 14.—Government shipbuilding at this port was seriously hampered today by strikes of carpenters and joiners in the shipbuilding plant of the Bethlehem Steel company, at Sparrow's Point, and the Baltimore Dry Docks and Shipbuilding company. Two hundred men at each place failed to report for work this morning.

An official of the Baltimore Dry Docks and Shipbuilding company said he did not know the reason for the strike of his men. They had made no demands, he said. The leaders of the men refused to discuss their action, saying, "They know all about it in Washington."
